

### OVERVIEW

The rapidly deployable wireless camera (RDWC) from Netarus is a completely stand-alone weatherproof camera with carrying handle. The RDWC is equipped with a high resolution day/night 2.8-12mm varifocal camera, featuring a Sony Super HAD Color CCD chipset that delivers a crisp 600 lines resolution with a minimum illumination of 0.0 lux with IR on. With an IP67 weatherproof rating, the RDWC's camera is made of a rugged aluminum die-cast housing to provide increased protection against accidental impact or vandalism. It also comes with an adjustable sunshield to reduce glare and contact with the elements and includes heaters for all-weather performance.

Equipped with a wireless transmitter and convenient carrying handle, the RDWC can be deployed within seconds to aid in navigation or transportation. Cost effective and purpose built to withstand the harshest environments, the RDWC offers several advanced features, including a auto-iris zoom lens which allows you to adjust your camera to achieve the exact field of view you need. Other features include 65 foot IR Range, Digital Day/Night, Digital Noise Reduction (DNR), On Screen Display (OSD), Digital Wide Dynamic Range (DWDR) and Digital Slow Shutter (DSS) for enhanced performance and greater flexibility. This unit comes with a 1-year warranty.

### Rapidly Deployable Wireless Camera RDWC111

### FEATURES

- IP67 weatherproof camera with built-in battery, wireless transmitter and camera
- 2.4Ghz analog wireless transmitter
- Four 100lb force base magnets to mount to any magnetic surface
- Ultra low-lux night vision camera with 0.0001 starlight capability.
- Premium 2.8-12mm varifocal, auto-iris zoom lens
- 2000ft wireless transmission range (optional 3000ft to several miles)
- Rechargeable lithium battery with run-time between 12 to 36+ hours
- Operating temperatures between -20C to +50C
- Dimensions: 9.50" x 7.50" x 7" (with camera)
- Weight: 14lbs with 10Ah battery and single camera.

### INCLUDED

- Varifocal ultra low-lux night vision 2.8-12mm night/day camera
- 10Ah rechargeable lithium battery
- 12VDC battery charger
